Customer Problem Statement Template

A customer problem statement describes a passenger's needs, the obstacles they face, the reasons those obstacles occur, and how the experience makes them feel. For this project, the statements focus on digital metro ticket booking through ServiceNow, automatic fare calculation, QR-code ticket generation, and notifications.

I am	Describe the customer: who are they?	A metro passenger who wants a fast and accessible way to book a ticket.
I'm trying to	What are they trying to achieve?	Select source and destination stations, enter travel details, know the fare, and receive a digital ticket.
but	What problems or barriers stand in the way?	Manual or slow ticket booking can involve waiting, repeated data entry, and uncertainty about fare and ticket confirmation.
because	What is the root cause?	The booking process may not provide one automated workflow for station selection, fare calculation, QR-ticket generation, and notifications.
which makes me feel	How does this affect the customer emotionally?	Impatient, inconvenienced, and unsure whether the ticket is ready for travel.

Problem Statements

Problem Statement	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A metro passenger	Book a metro ticket quickly by selecting stations and travel details.	Ticket booking may take time, and the passenger may have to wait or repeat steps to obtain a ticket.	The process may not combine booking details, automatic fare calculation, and instant digital ticket generation in one workflow.	Rushed, inconvenienced, and frustrated by delays.
PS-2	A passenger using digital booking	Receive a correct ticket and understand the fare before travelling.	The passenger may be uncertain about the fare or whether the ticket has been successfully generated.	Fare calculation and ticket confirmation may not be automated or clearly communicated.	Unsure and concerned about whether the journey is ready.
