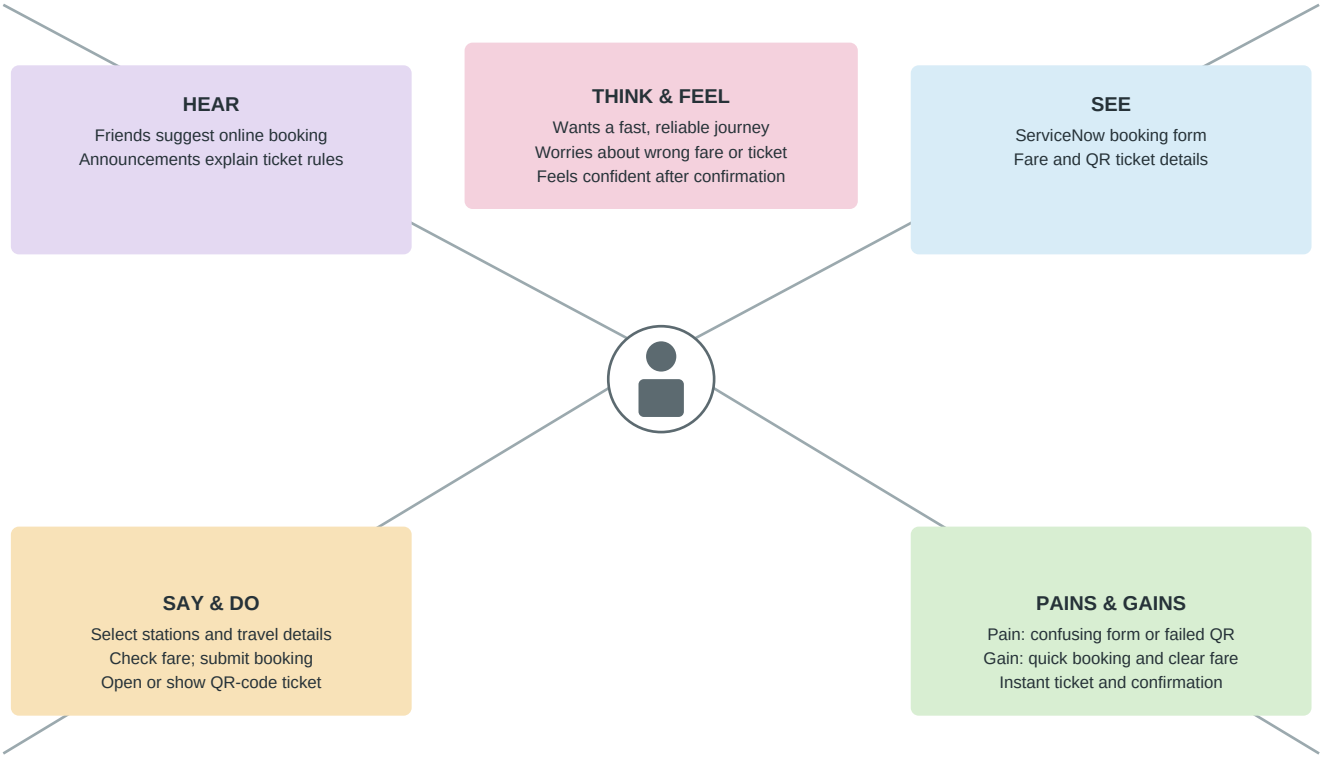
Ideation Phase
Empathize & Discover

Date	17 October 2026
Project Name	Metro Ticket Generating System using ServiceNow
Maximum Marks	4 Marks

Empathy Map Canvas

An empathy map helps the team understand the passenger's perspective, including what they think and feel, hear, see, say and do, and the pains and gains they experience while booking a metro ticket. This map is based on the project description: ServiceNow Service Catalog booking, automatic fare calculation, QR-code digital tickets, Flow Designer automation, and Notifications.



Passenger Empathy Notes

Think & Feel	"I want to book quickly. Is the fare correct? Has my ticket been generated?"
Hear	May hear recommendations from friends or family to use digital booking and reminders about metro travel rules.
See	Sees the ServiceNow portal, station selection fields, fare information, booking confirmation, and QR-code ticket.
Say & Do	Selects source and destination, enters travel details, checks fare, submits the booking, and opens the digital ticket.
Pains	Unclear form fields, incorrect station selection, uncertainty about fare, delayed confirmation, or a QR code that cannot be accessed.
Gains	Fast and accessible booking, automatic fare calculation, instant QR-code ticket generation, and clear notifications.
